

## **DO IT NOW**

***Time flies by so very fast, the years just come and go  
It always seemed when I was small, to go so very slow  
Birthdays took forever to come, and Xmas was so far away  
Schooldays lasted for weeks and weeks, not so the holidays***

***Everything's so much faster now, we're all in such a rush  
We want things now, or yesterday, if not we shove and push  
But God's time isn't like that, He's never in a hurry  
He waits for us so patiently, He doesn't fret or worry***

***So let's ask Jesus to come in and help us through each day  
He's just waiting to be asked, and He'll show us the way  
We have a choice, it's life or death, we only have to choose  
So do it now, He'll change your life, What have you got to lose ?***

***This is an urgent step to take and should be done today  
Our time on earth is very short and there is no other way  
Jesus is the One we need so come and take His hand  
He'll lead us to eternal life in the promised land***
