

## **ONLY BELIEVE**

***No longer do I worry what tomorrow has in store  
I know that if I ask you'll always give me more  
My faith gets stronger every minute of the day  
Cos I know that you will help me each step along the way  
I only have to believe in You***

***I know that you will guide me when times they seem so  
rough  
You'll comfort and protect me when life is getting rough  
Cos you're the friend I call on and you'll always see me  
through  
For you're there by my side in everything I do  
I only have to believe in You.***

***When my path is going crooked you'll show me the way  
I only have to follow your guidance day by day  
Your light will always shine from deep within my heart  
I only wish I'd known that from the very start  
I only had to believe in You.***
